DEAR PARENT OR GUARDIAN:

A registered dental hygienist from the Health Unit looked at your child's teeth today. **This does not replace your child's regular visit to your family dentist.**

DENTAL FINDINGS

- No visible concerns today
 - Better brushing/flossing needed
 - Non-urgent cavity present (may or may not require treatment)
 - Visible cavities present or suspected (immediate treatment recommended)
 - Possible infection (abscessed tooth)
 - Your child did not have a dental screening _____
 - Other: _____
- _____
- _____

**RECOMMENDATIONS

- Your child needs to see a dentist as soon as possible. Complete the application form provided.
- Your child has an area of concern that may require treatment by a dentist. If your child sees a dentist regularly, your dentist may already be aware.
- Your child may benefit from:
 - A professionally applied topical fluoride treatment to help prevent cavities.
 - Pit and fissure sealants to help prevent cavities (a thin plastic coating on the top of back teeth/molars).
 - Scaling (cleaning to remove hard plaque and help prevent gum disease).

**** If you do not have a dentist and/or cannot afford the cost of dental care, please call the Health Unit at 519-376-9420 or 1-800-263-3456 (press 8) for more information or to book an appointment.**
