

Scrambling to find your child's Immunization Card?

Use ICON and never be left scrambling again!

ICON is a secure online portal that allows you to easily access and update your child's immunization record whenever you want! No more searching for the Yellow Card when you need immunization information for travel or school/program enrolment.

- 1** Go to www.publichealthgreybruce.on.ca. Under "Your Health," hover over "Immunization" and select "Your Immunization Records."
- 2** On this page, click "Access & Update Your Immunization Card" to go to ICON.
- 3** Click "Get Started," select if you're using a Personal or Public Device, and hit "I Accept" at the bottom of the "Acceptable Use Policy" page.
- 4** Verify your child's identity by filling in the Health Card information on the left side or "Immunization ID" box on the right. Click Verify Patient or Verify ID.
- 5** If no immunization information is in ICON, you'll be prompted to click OK and enter your contact details and address.
- 6** Follow the instructions to enter or view your child's vaccination information in ICON.

Did you know?

Every time your child receives a vaccine, you need to notify Public Health.

To save you time, once you enter *one* of your child's past immunizations into ICON, you can then click "Save and Proceed to Documents" and upload their entire record as an attachment. This will put all of their immunization information into the system.
